Total Cumulative Expenditures	\$151,108.99
Current Period Obligations	\$151,108.99
Current Period Expenditures	\$151,108.99
Project Description	<p>The Hidalgo County Community Service Agency Premium Pay Program authorizes Premium Pay to regular full-time, regular part-time, temporary full-time, and temporary part-time employees who were hired in person on or before August 1, 2021. The purpose of the program is to provide pay to eligible employees who have been, and continue to be, relied on to maintain the operations of essential, critical infrastructure sectors, including those who are crucial to protecting the health and wellbeing of their communities; employees teleworking from a residence are not eligible to receive Premium Pay. Premium Pay has been awarded at a rate of \$13.00 per hour in addition to regular wages.</p> <p>Premium Pay should not exceed the tiered amounts of \$3,500.00 for eligible employees earning up to \$40,000.00, \$3,000.00 for eligible employees earning between \$40,001.00-\$60,000.00, and \$2,500.00 for eligible</p>

	employees earning over \$60,000.00. Regular part-time and temporary-part time employees will receive 50% of the \$13.00 per hour pay rate once approved hours are met.
Sectors Designated as Essential Critical Infrastructure Sectors	Community Service Agency
Number of workers to be served	42
Premium Pay Narrative	<p>Since the start of the COVID-19 public health emergency in January 2020, County employees (essential workers) have put their physical wellbeing at risk to meet the daily needs of our community and to continue to provide essential services. In the course of this work, many essential workers have contracted or have been exposed to COVID-19. Furthermore, as noted in the American Rescue Plan Act, many essential workers are people of color or low-wage workers. These workers, in particular, have borne a disproportionate share of the health and economic impacts of the pandemic. The American Rescue Plan Act (2021, ARPA) authorizes Premium Pay to essential employees who have been and continue to be relied on to maintain continuity of operations of essential critical infrastructure sectors, including those who are critical to protecting the health and wellbeing of their communities. All county employees are deemed eligible workers performing essential work during the COVID-19 public health emergency performing essential work. Premium Pay is afforded to remunerate essential workers for the elevated health risks they have faced and continue to face during the public health emergency. To ensure that Premium Pay is targeted to workers that faced or face heightened risks due to the character of their work, the ARPA guidance defines essential work as work involving regular in-person interactions or regular physical handling of items that were also handled by others. A worker would not be engaged in essential work and, accordingly, is not eligible to receive Premium Pay for telework performed from a residence. See American Rescue Plan Act, (2021), Interim Final Rule, 31 CFR Part 35, Subpart A § 35.3 Definitions.</p>

Project Description	<p>The Cybersecurity Detection and Response project would provide, as an annual license, monitoring services–Rapid7 InsightIDR + InsightVM + Detection and Response Service to the Information Technology Department, specifically the Cybersecurity team, as a Security Event Incident Management (S.E.I.M.) system to analyze the data infrastructure in the event of security breaches. Due to the ongoing COVID-19 public health emergency, governments set restrictions in response to the coronavirus pandemic that has encouraged employees to work from home and stay at home. Due to the rise in remote workers, there has been an increase in vulnerabilities and compromised accounts.</p> <p>The aforementioned software will increase the detection and response with alerts of malicious or questionable activity on the data infrastructure as well as provide an analysis of the environment for any addressable vulnerabilities. Through this project, the County of Hidalgo will be able to provide a cyber-safe remote-work environment, which has become crucial and essential to continue the county efforts to mitigate the spread of COVID-19.</p>
