Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

General Overview

Executive Summary

After receiving the first installment of its Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) program allocation, Hidalgo County began its strategic development plan to expeditiously respond to the COVID-19 public health emergency. The program, which supports state and local governments' response to COVID-19 and its effects, has allowed the County to take a dedicated and intentional approach to addressing the COVID-19 public health emergency's disproportionate impacts on County residents. Simultaneously, federal funds have also granted the opportunity to respond to the long-standing socioeconomic disparities among underserved communities.

Since its inception, the Department of Budget and Management American Rescue Plan Act (ARPA) Program has strategically operated to expend funds in compliance with the CSLFRF Final Rule and Compliance and Reporting Guidance. The program is currently overseeing the expenditure of funds and ensuring that projects are executed in a manner that is equitable, efficient and effective.

Last year, the County launched efforts to improve its public health system and invest in its community through recreational development and improvements to stormwater systems. Public health measures continue to be the focal point of the County's COVID-19 recovery. Meanwhile, projects aimed at addressing recreational spaces in Qualified Census Tracts (QCTs) and stormwater systems are nearing the end of their respective preliminary phases.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Uses of Funds

In November 2020, the Hidalgo County ARPA Program presented the preliminary allocation plan to Commissioners Court (AI-43461) to delineate the County's plan to expend funds received from the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) program to Hidalgo County constituents. The preliminary allocation plan outlined four distinct focuses for the CSLFRF program: Public health, COVID-19 mitigation, government services and socioeconomic disparities.

The County is currently addressing access to health care, inadequate stormwater systems and underdeveloped recreational areas in qualified census tracts. Additionally, the County is jumpstarting its public Wi-Fi initiative by increasing access to broadband internet among communities in need.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Public Health (Expenditure Category 1)

In 2021, Hidalgo County began a comprehensive response to the COVID-19 pandemic and its impacts on the public health system. Efforts included investing in health care access in indigent communities, addressing congregate settings in County workspaces and jails and strengthening the County's response to COVID-19. Currently, the County is no longer utilizing a mobile unit for COVID-19 operations. The County is continuing to mitigate the spread of COVID-19, especially in jails by transferring inmates to other facilities in order to alleviate overcrowding. Recently, the County has reinforced COVID-19 prevention efforts in the Hidalgo County Adult Detention Center by hiring five additional medical assistants. The medical assistants provide crucial medical services to inmates in the event of a COVID-19 infection or other illness. Moreover, the County has retrofitted the new Hidalgo County Courthouse with COVID-19 prevention equipment and enhancements, including antimicrobial heating, ventilation along with cooling systems and hands-free functionalities in restrooms and congregate areas.

Last year, the County outlined measures to increase access to health care in indigent communities, including improvements to Hidalgo County Health Department clinics and assistance to nonprofit clinics. The County Health Department clinics that are receiving assistance via the CSLFRF program are the Hidalgo Clinic and Mission (Schuerbach) Clinic. Both projects remain in preliminary development. The County is also still in the preliminary stages of reopening a defunct clinic located in Precinct 3. Beyond improvements to clinics, funds will also be granted to nursing schools for instructor retention incentives in order to increase the number of graduating nurses in Hidalgo County.

The County is also enhancing its emergency response capabilities by investing in emergency response equipment to administer services during peak operating periods, such as COVID-19 case surges. The ability to timely and aptly respond to emergencies is an essential aspect of government services. Additionally, Hidalgo County has acquired a vehicle outfitted with pre-hospital medical equipment intended for medical services to homebound individuals, the elderly and populations with disabilities. Services will primarily focus on communities that have been disproportionately impacted by COVID-19. Finally, the County is also obtaining a patching system to improve communication response efforts and collaboration with radio communication among County emergency responders.

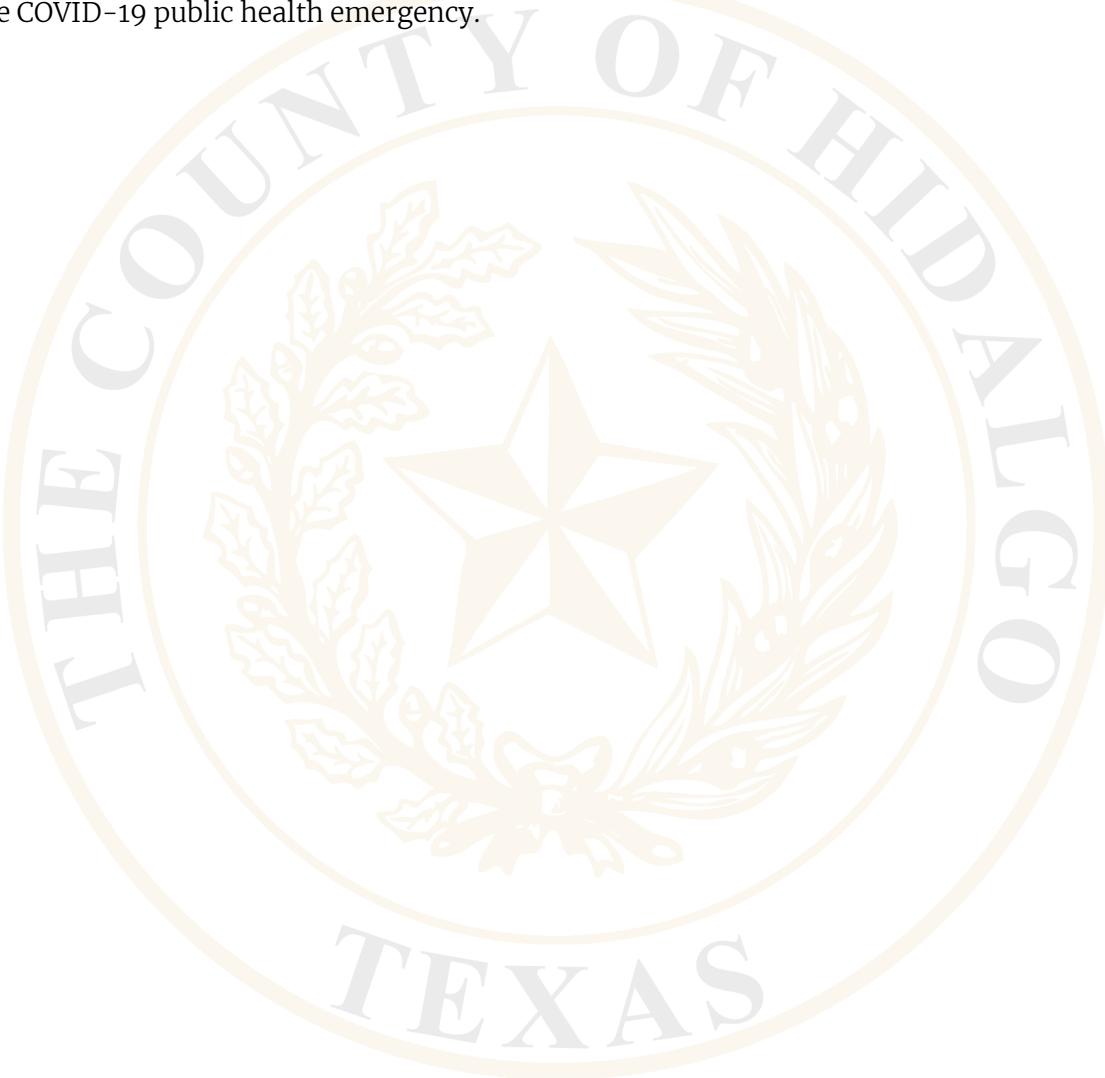

Furthermore, the County is planning to extend CSLFRF to provide a future emergency management facility with the necessary equipment, means and retrofits to operate under emergency situations. Hidalgo County is funding a deputy emergency management coordinator position to provide and implement emergency preparedness, coordinate training programs and emergency operations that will prepare the county for best outcomes during emergency situations and an overtime program, which remunerates employees who are directly responding to the COVID-19 public health emergency.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

The Hidalgo County Health Department has undertaken an initiative to electronically store COVID-19-related documentation, such as vaccination and testing records. The County procured software to assist in this initiative and employed a team to scan and enter the documents into the new system. The Health Department has adapted to COVID-19 era precautions by acquiring software to enhance cybersecurity for employees working remotely. Hidalgo County is enhancing its cybersecurity capabilities for employees working remotely due to the COVID-19 public health emergency.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Negative Economic Impacts (Expenditure Category 2)

The COVID-19 public health emergency severely damaged Hidalgo County's local economy and disproportionately impacted populations. In order to foster a resilient and equitable economic recovery, Hidalgo County is addressing the impacts of the COVID-19 pandemic on vulnerable populations. Measures taken to assist those who suffered the worst of the pandemic align with the County's goal of promoting equity among communities.

The County assisted a struggling emergency services (EMS) provider by contributing a portion of its CSLFRF allocation. Although the EMS provider experienced the negative economic impacts of the pandemic, it continued to service County residents. The assistance provided to the EMS provider will allow it to continue to provide lifesaving services to residents, especially those living in unincorporated areas of Hidalgo County.

In response to the collective grief endured by students in Hidalgo County schools due to COVID-19, the County is partnering with school districts to create programs that promote wellness and mindfulness among low-income and disadvantaged students.

In addition to providing mental health services to the County's youth, the County is also promoting wellness among children by assisting two nonprofit organizations. The assistance will allow the nonprofits to continue providing educational and behavioral health services to children in Qualified Census Tracts. Investments in the behavioral health and education of the County's youth are critical in their emotional and physical development.

Families across the County have endured the indiscriminate and harsh negative economic impacts of the pandemic. The County plans to provide small repairs and rehabilitation housing assistance to a nonprofit organization that services low-income individuals and families experiencing homelessness in *colonias*, residential areas along the Texas-Mexico border that may lack basic living necessities such as, potable water, septic or sewer systems, electricity, paved roads or safe and sanitary housing. Individuals and families in *colonias* are in need of support, and the program will bring much needed improvements to homes in unincorporated areas of the County.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Services to Disproportionately Impacted Communities (Expenditure Category 3)

The COVID-19 public health emergency has collectively impaired the psyches of Americans. Pandemic-related stress has exacerbated behavioral health difficulties, depression, anxiety and substance use. In response, parks along with hike and bike trails have become platforms for exercise and mental relief. The County is utilizing funds to enhance and/or improve amenities that will promote healthier living environments by allowing accessibility to safe and socially distanced recreational areas in disproportionately impacted communities to improve the mental and physical well-being of residents.

Various parks in disproportionately impacted areas within Precinct 3 continue to be identified. Meanwhile, J.R. "Milo" Ponce Park, located in Precinct 4, is nearing the end of its preliminary development stage. The park will replace existing playground amenities with modern, more inclusive equipment for children aged 2 to 12 years and measures will be taken to improve accessibility. The County rescinded the action to improve and fund Precinct 4's Pueblo de Palmas Park due to other funds being allocated and appropriated to this project.

Substantial developments will be made to Lopezville Park in Precinct 2. The proposed improvements include soccer fields, inclusive playscapes, basketball courts, tennis courts, walking trails and a fishing pond, all of which will improve social determinants of health in, near and around the park.

Moreover, significant investments will be made in hike and bike trails located within Precincts 1 and 2. The developments made in the trails are a part of the County's goal of improving the mental health of the County by addressing social determinants of health in disproportionately impacted communities. The ARPA Program's goal is to reimagine public spaces and create access for constituents to discover hidden gems within Hidalgo County. Precinct 2 trails will be extended to connect to trails in the Cities of Hidalgo, McAllen and Mission. Meanwhile, a new trail will be developed in the Mid-Valley area of Precinct 1. The Precinct 1 trail will travel through the Cities of Alamo, Donna, Mercedes, Pharr and Weslaco.

Hidalgo County intends to construct a community resource center alongside a health clinic. The community resource center will improve the well-being of disproportionately impacted communities through educational services, child care and access to assistance and support services to meet the needs of the constituents.

To specifically address the disproportionate impacts of the pandemic, the County will create two positions. The first position will assess the economic impacts of the COVID-19 pandemic which will allow the County to deliver more intentional and targeted services to constituents. The second position, Community Navigator, is designed to reduce barriers that underrepresented and underserved individuals face in accessing programs. The navigator will

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

locate and access COVID-19-related community resources, develop relationships that promote community inclusion and equip persons with disabilities with the necessary means to navigate the ongoing public health emergency.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Premium Pay (Expenditure Category 4)

In 2021, Hidalgo County authorized premium pay programs for County, Community Service Agency and Drainage District regular full-time, regular part-time, temporary full-time, and temporary part-time employees who were hired in person on or before August 1, 2021.

The purpose of the programs was to provide pay to eligible employees who have been, and continue to be, relied on to maintain the operations of essential, critical infrastructure sectors, including those who are crucial to protecting the health and wellbeing of their communities; employees teleworking from a residence are not eligible to receive Premium Pay. Premium Pay has been awarded at a rate of \$13.00 per hour in addition to regular wages. Premium Pay should not exceed the tiered amounts of \$3,500.00 for eligible employees earning up to \$40,000.00, \$3,000.00 for eligible employees earning between \$40,001.00–\$60,000.00, and \$2,500.00 for eligible employees earning over \$60,000.00. Regular part-time and temporary-part time employees will receive 50% of the \$13.00 per hour pay rate once approved hours are met.

All three programs are complete for the year 2021.

In 2022, Hidalgo County authorized a second set of premium pay programs for County, Community Service Agency, Head Start and Hidalgo County Drainage District regular full-time, regular part-time, temporary full-time and temporary part-time employees who were hired in person on or before June 1, 2022.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Infrastructure (Expenditure Category 5)

The U.S. Treasury's CSLFRF final rule allows state and local governments to expend funds to enhance existing storm and wastewater infrastructure in order to recognize and address areas of critical need. Hidalgo County has an array of areas with limited or no access to clean water or viable stormwater systems. The aforementioned areas are often susceptible to flooding during rainy seasons. Most notably, low-income and minority communities often encounter considerable water inequities, such as increased lead exposure and risk of infection from exposure to fecal matter. All in all, the streets, avenues and main roads of Hidalgo County are affected by the collapsed drains. The flooding caused by inadequate stormwater systems damages homes, harms constituents, destroys property, spreads disease and erodes roads. To address the health and equity in the County, the ARPA Program is launching a dedicated effort to provide efficient stormwater management.

The County plans to address health inequities by investing in wastewater and stormwater infrastructure in the following areas:

- Precinct 1 Mercedes Gate Structure
- Precinct 1 Inline Check Valves
- Precinct 1 Delta Region
- Precinct 2 Stormwater System Management
- Precinct 3 Tierra Dorada Boulevard
- Precinct 3 Glasscock Road Miles 4 to 5
- Precinct 3 Farm to Market Road 2221
- Precinct 3 Harvest Time Road
- Precinct 3 Jessica Drive and Ashley Way to Goodwin Road
- Precinct 3 Tierra Linda Boulevard Drain
- Precinct 4 Tex-Mex Road
- Precinct 4 Terry Road
- Precinct 4 Mile 17 Road
- Precinct 4 Encore Ranches (Northeast corner of Curry and 83rd Street)
- Precinct 4 Mile 17 & 83rd Street
- Precinct 4 Rio Grande Care Road
- Precinct 4 Colonia Tejana (Southside of S.H. 107 and North of Tex Mex Rd. between S. 83rd St. and S. 87th St)
- Precinct 4 Bentsen Road
- Precinct 4 North Main Drain III
 - Phase 1
 - Phase 2
- Precinct 4 Hoehn Road and Southeast Monte Cristo Road

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Hidalgo County will continue its Wi-Fi accessibility initiative via the ARPA Program. In response to the increased need for stable Wi-Fi access due to challenges brought by the COVID-19 public health emergency, the Hidalgo County ARPA Program has made dedicated efforts to increase Wi-Fi accessibility through last-mile projects and replacing and/or restoring County Wi-Fi poles.

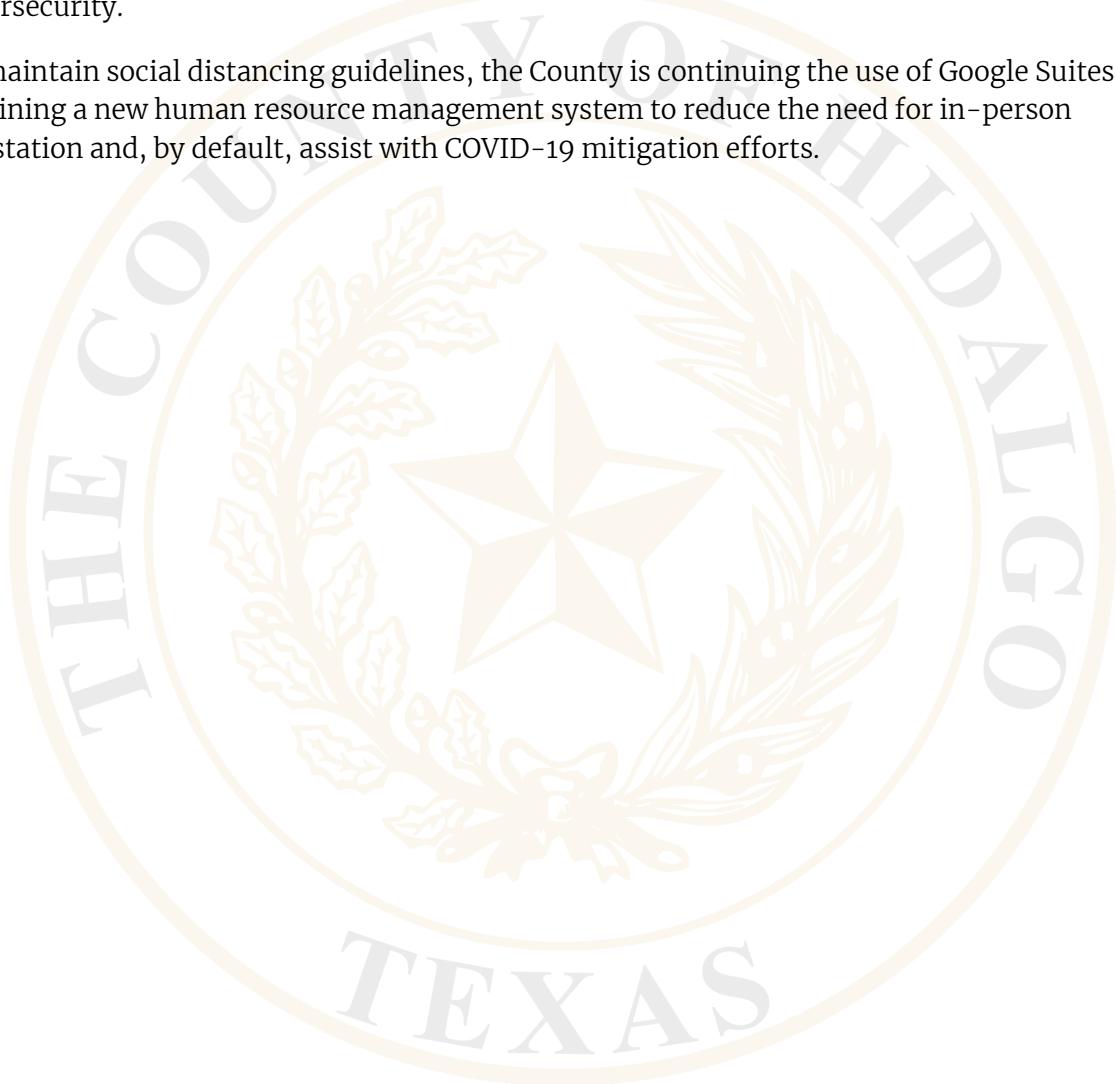

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Provision of Government Services (Expenditure Category 6)

In order to facilitate and expedite government services, Hidalgo County invested in retrofits for County equipment and facilities. The County also ensured that essential government services and emergency operations continued through the ongoing public health emergency, including debris removal, improvements to public Wi-Fi accessibility via pole replacements and County cybersecurity.

To maintain social distancing guidelines, the County is continuing the use of Google Suites and obtaining a new human resource management system to reduce the need for in-person attestation and, by default, assist with COVID-19 mitigation efforts.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Promoting Equitable Outcomes

Goals

Hidalgo County's recovery efforts are developed to provide access, opportunity and outreach to all. Key principles that are taken into consideration are race, class, age, and gender. All the aforementioned factors have played a role in the experiences of impacted and disproportionately impacted communities. The majority, Latino population, located in disproportionately impacted areas had their historical inequities exacerbated.

In accordance with the federal government's Executive Order 13985, which focuses on advancing equity to underserved communities, Hidalgo County has taken a dedicated approach toward the equitable use of CSLFRF. The Hidalgo County ARPA Program is devoted to addressing socioeconomic inequities across all races and classes. Efforts are not focused on providing the same services among all constituents; rather, projects will yield resources and opportunities to leverage outcomes experienced by groups that do not experience the same socioeconomic disparities, such as lack of access to recreational spaces, broadband internet and serviceable stormwater management systems.

In sum, equity goals outlined by the Hidalgo County ARPA Program serve to bridge long-standing gaps in government services. Hidalgo County established an equity framework to facilitate its goal of promoting equity.

In response, equity focused initiatives that provide mental health services, COVID-19-related care and general health care are set to be based in Qualified Census Tracts. Households in Qualified Census Tracts are designated by the U.S. Department of Housing and Urban Development as areas in which must have 50% of its households with incomes below 60% of the area median gross income. The County's direct assistance to underserved populations addresses equity by increasing accessibility to basic government services.

Awareness

Hidalgo County has launched a centralized and systemic communications effort for all CSLFRF projects. To gain perspective on community needs, several outreach strategies are in place for data collection. First, our website contains an intake survey where respondents may provide qualitative data; the survey has also been disseminated via social media. The survey is open to individuals, households, small businesses, non profit organizations and other entities. Second, the County has also engaged with local radio and television stations to reach individuals that may not have internet access. Lastly, our residents may access our contact information (Email and phone) on our website to inquire on program services and eligibility.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Access and Distribution

Populations in Hidalgo County face significant barriers in accessing government services and communication. According to the U.S. Census Bureau almost 30% of the population does not have access to broadband internet, and the federal government's Education & Labor Committee reports a 50% literacy rate. As projects reach milestones, the Hidalgo County ARPA Program has circulated information on the County's social media channels and website. The ARPA Program also has an email listing in which subscribers receive CSLFRF news electronically. Information is communicated in English and Spanish and accommodations are available upon request. As previously stated, constituents may contact the Hidalgo County American Rescue Plan Act Program via Email or phone to inquire on program services and eligibility.

Outcome

The County intends to bridge gaps in government services by centralizing projects in areas of greatest need and prioritizing services that optimize support and resources. Stormwater system improvement projects are at the forefront of the County's initiatives to alleviate the effects of stormwater and improve public health outcomes. Equity will be measured at different points based on completed projects and the social determinants of health. Currently, no projects have been completed.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Community Engagement

Hidalgo County is devoted to engaging the community in its effort to recover from the COVID-19 public health emergency and its negative impacts. Last year, the County launched a survey (English and Spanish) to gather public opinion on the impacts of COVID-19 in Hidalgo County. With a predominantly 92.5% Hispanic population and a 33.5% poverty level, the County received a variety of responses and is continuing to allow submissions.

At this time, survey respondents rate limited health care access and limited access to broadband internet as the greatest disparities exacerbated by the COVID-19 pandemic. In order to address concerns expressed by the community, the County plans to implement projects that respond to the aforementioned socioeconomic inadequacies. The forthcoming projects not only address socioeconomic disparities, but also promote equitable outcomes among residents.

Hidalgo County is investing in capital expenditures in three County clinics to increase access to public health care: the El Paraiso and Mission Clinics in Precinct 3 and the Hidalgo Clinic in Precinct 2. The improvements to the clinics will promote equitability and increase residents' access to vital health services amid the COVID-19 public health emergency. In addition, the County is also providing assistance to nonprofit clinics that aid indigent populations.

Wi-Fi and broadband access have become vital to working and learning amid the COVID-19 public health emergency. In response to the County's lack of serviceable broadband internet connection, the ARPA Program is preparing a slew of projects that directly increase broadband access in areas that need it most. Projects include replacements of County Wi-Fi service poles and efforts to improve Wi-Fi in last mile areas.

Moreover, constituents reached out to County Precinct Commissioners for assistance with stormwater initiatives due to the county's problematic flooding history. Approximately 60% of CSLFRF funding will be utilized to improve social determinants in order to improve health outcomes.

By leveraging inadequacies in health, broadband and stormwater infrastructure, Hidalgo County residents will access resources and opportunities to encourage neighborhood socialization, improve economic health by increasing property values and increased community quality of life.

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Labor Practices

The Hidalgo County Drainage District No. 1 proactively manages the Hidalgo County Master Drainage System and allows for the efficient exportation of stormwater, to protect life and property for Hidalgo County residents, businesses and surrounding jurisdictions. It is befitting that they assist the county with the significant majority of stormwater projects to enhance long-term economic development and implementation of innovative technologies.

To best meet the needs of the community, Hidalgo County aims to observe CSLFRF labor practices to restore and revitalize the economy. Accordingly, other capital investment projects remain in preliminary stages and will follow labor standards as they progress.

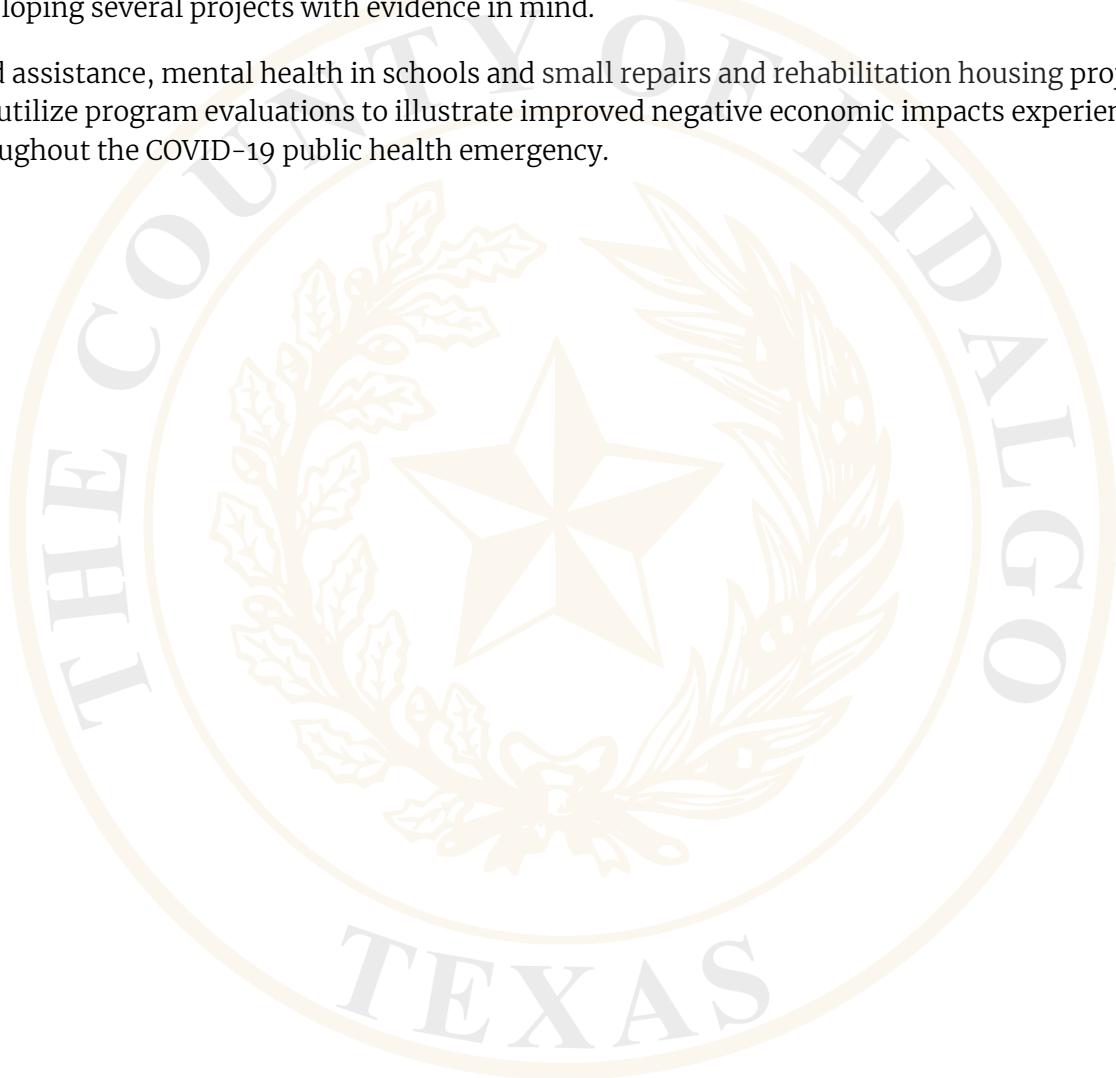

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Use of Evidence

As Hidalgo County begins to implement projects to mitigate COVID -19 effects on individuals, households, communities, small business, non-profits and impacted industries, use of evidence will be incorporated in the projects with no additional use of funds being utilized to produce data. In its effort to deliver equitable, effective and evidence-based projects, Hidalgo County is developing several projects with evidence in mind.

Food assistance, mental health in schools and small repairs and rehabilitation housing projects will utilize program evaluations to illustrate improved negative economic impacts experienced throughout the COVID-19 public health emergency.

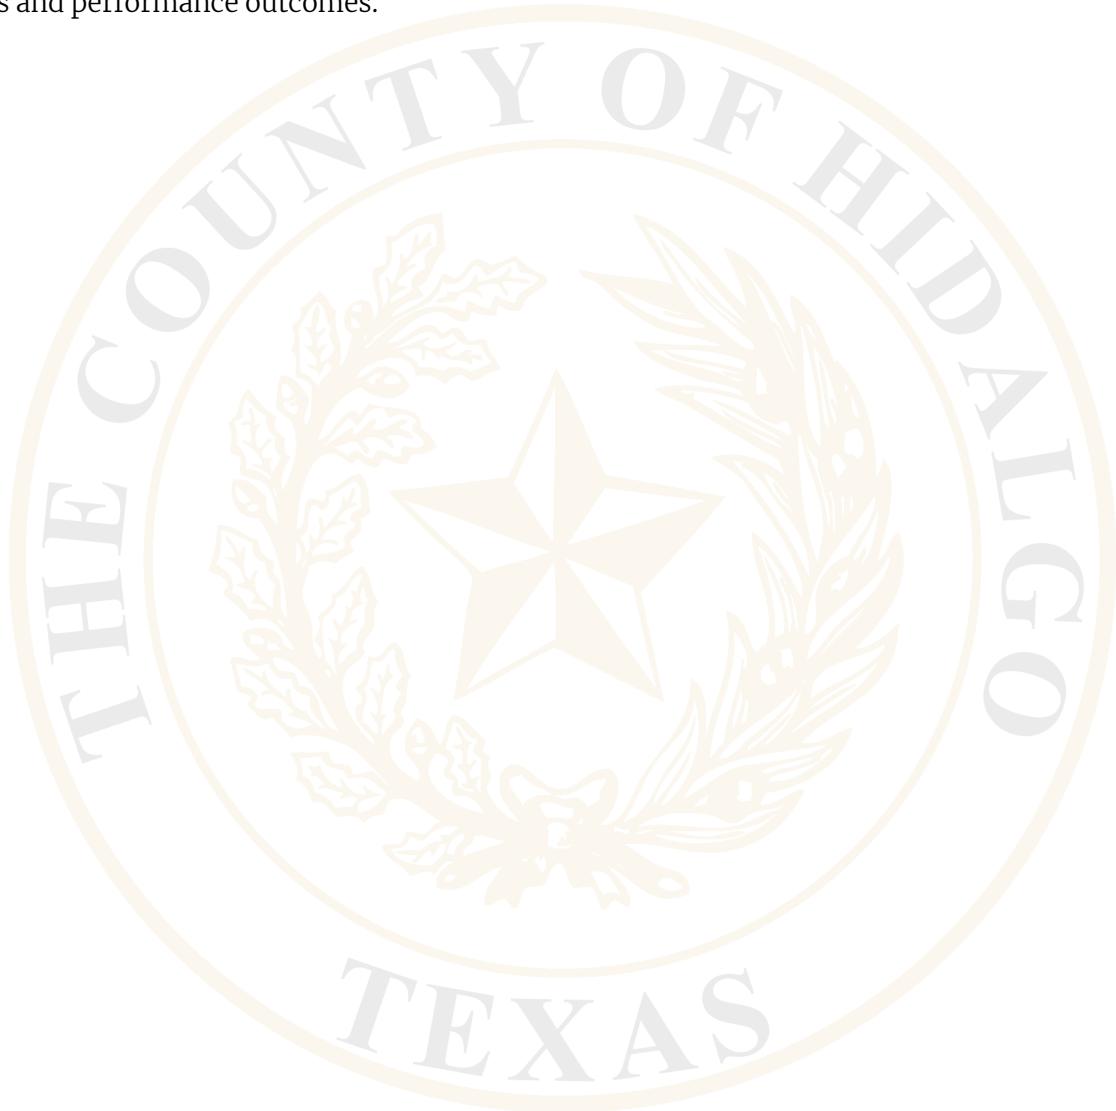

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Performance Report

As Performance data is linked to project implementation, operation and completion, such milestones have not been reached. As projects are completed, data gathering and analysis will be conducted. Measurement results will be provided to reflect key performance indicators, goals and performance outcomes.

mitigate the spread of the virus. More than 20 months into the pandemic, the evidence of long-term malaise related to COVID-19, including mental health and economic issues such as mortgage or rental needs caused by the pandemic have become more evident. The COVID-19 Media Campaign intends to address some mental health concerns by giving the public a report card of what Hidalgo County has done so far to address the pandemic. The idea is to convey the sense that health officials are gaining the upper hand as it relates to mitigating the spread of the virus, as well as the treatment. The expectation is to assuage real mental health concerns that suggest the COVID-19 pandemic will never end. The campaign will also seek to disseminate information regarding the ongoing effort to diminish the virus and its effects by educating the public on questions of vaccinations and who is eligible for treatment, including the state-run infusion center.

Juvare WebEOC Product Enhancement

\$14,500.00

Expenditure Category Group

1: Public Health

Expenditure Category

1.8: Other COVID-19 Public Health Expenses (including Communications, Enforcement, Isolation/Quarantine)

Project Description

In order to efficiently and adequately respond to the COVID-19 public health emergency, the Hidalgo County Office of Emergency Management will utilize Juvare WebEOC to streamline communication and response efforts related to the COVID-19 pandemic and other potential public health emergencies. Juvare WebEOC is an emergency management

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

software that shares data and workflows among agencies and employees. Data collected through the software is also able to be exported to other programs. The Emergency Management Department seeks to use the software to facilitate the dissemination of information between Hidalgo County and its jurisdictions. The shared information ranges from COVID-19 hospital statuses and personnel requests that are sent to the State of Texas to daily COVID-19 testing of immigrants. Juvare WebEOC allows for communication with constituents and other County departments through a public facing form.

Radio Communication Project

\$146,070.50

Expenditure Category Group

1: Public Health

Expenditure Category

1.8: Other COVID-19 Public Health Expenses (including Communications, Enforcement, Isolation/Quarantine)

Project Description

The Radio Communication Project will address and improve radio communication equipment, as the dissemination of accurate information plays a critical role in executing COVID-19 mitigation tactics. The Radio Communication Project will consist of a purchase of 6 mobile radios and 12 portable radios. Additionally, the purpose of the purchase is to place several radios in the COVID-19 Mobile Command Unit, Mobile Support (Box Trucks), COVID-19 Rapid Response Communication Unit, and a COVID-19 Rapid Response Medical Unit to include the High Water Rescue Vehicle. The equipment will be used to assist in COVID-19 response and mitigation efforts. The project

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

would allow various agencies and County departments to remain in constant communication with each other during responses, such as operations with hospital surges, mass vaccination clinics, and food and supply distributions.

Funding Amount

Assistance to South Texas College Nursing Program

\$2,000,000.00

Expenditure Category Group

1: Public Health

Expenditure Category

1.12: Other Public Health Services

Project Description

The Assistance to South Texas College Nursing Program intends to respond to the public health crisis by investing in the South Texas College Nursing program, which produces healthcare professionals. The ongoing pandemic has shown healthcare professionals, especially nurses, continue to be in high demand due to shortages in faculty members at local nursing programs. The project aims to utilize ARPA Relief Funds to assist in obtaining supplemental faculty positions and expand class sizes. This investment will also assist in providing the necessary resources for training future nurses. Furthermore, the program has as an objective to assist local institutions in recruitment and retention of faculty and students. Assistance to South Texas College will allow the County of Hidalgo to address the ongoing COVID-19 public health emergency and any future public health emergencies more effectively.

Funding Amount

Cyber Security Detection and Response

\$1,091,418.00

Expenditure Category Group

1: Public Health

Expenditure Category

1.14: Other Public Health Services

Project Description

The Cybersecurity Detection and Response project would provide, as an annual license, monitoring services – Rapid7 InsightIDR + InsightVM + Detection and Response Service to the Information Technology Department, specifically the Cybersecurity team, as a Security Event Incident Management (S.E.I.M.) system to analyze the data infrastructure in the event of security breaches. Due to the ongoing COVID-19 public health emergency, governments set restrictions in response to the coronavirus pandemic that have encouraged employees to work from home and stay at home. Due to the rise in remote workers, there has been an increase in vulnerabilities and compromised accounts. The aforementioned software will increase the detection and response with alerts of malicious or questionable activity on the data infrastructure as well as provide an analysis of the environment for any addressable vulnerabilities. Through this project, the County of Hidalgo will be able to provide a cyber-safe remote-work environment, which has become crucial and essential to continue the county efforts to mitigate the spread of COVID-19.

Expenditure Category	1.7 Capital Investments or Physical Plant Changes to Public Facilities that respond to

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

Project Description

the COVID-19 public health emergency

In the last two years, COVID-19 has greatly impacted the nation and, in particular, regions of low socioeconomic status. Currently, 26.9% of Hidalgo County's population lives below the poverty line, and the pandemic's impact on the county's public health is evident. The rise in COVID-19 cases has increased COVID-19 related emergency response services. An Emergency Management Facility will provide crucial benefits to underserved populations in Hidalgo County. Furthermore, this facility will provide a centralized location to manage ongoing emergency operations and will bring together experts to coordinate emergency operations, including, but not limited to, resources, information, crisis, and emergency risk communication to strengthen the county's ability to detect and effectively respond to the ongoing and future public health emergencies.

The Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) Final Rule allows for the construction or improvements to public facilities that respond directly to COVID-19. Based on the Final Rule, construction and improvements to an Emergency Management Facility and Emergency Operations Center are eligible expenditures when the project is related and reasonably proportional to the public health impact of the pandemic. Therefore, the Coronavirus CSLFRF Final Rule allows for the construction of facilities to respond to the ongoing public health emergency and any future public health emergencies more effectively.

Expenditure Category

2.1: Household Assistance: Food Programs*^

Project Description

For the past two years, COVID-19 has greatly impacted the nation, especially regions of low socioeconomic status. Nonprofits, which provide vital services to communities, have faced economic and financial challenges due to the pandemic. Food banks continue to respond to increased demand due to the COVID-19 public health emergency. The County desires to designate ARPA funds to assist the RGV Food Bank for additional expenses incurred due to the COVID-19 pandemic. One objective is to provide the citizens of Hidalgo County access to food delivery services including, but not limited to, senior citizens and other vulnerable populations that have been impacted by the COVID-19 public health emergency. Additionally, community factors, such as a debilitated support system, can directly impact and increase a family's likelihood of having food insecurity. Food banks are responding to the rise in food insecurity caused by the COVID-19 public health emergency. The ARPA funds will help support the RGV Food Bank and ensure there is an abundance of resources to meet the growing demand for food assistance.

Project Description

The Hidalgo County Precinct 3 El Paraiso Community Resource Center (CRC) intends to utilize ARPA Relief funds to construct a community resource center located in a Qualified Census Tract (QCT) area. The CRC's objective is to provide access and informative educational programs to improve the well-being of the disadvantaged and most vulnerable Hidalgo County Community

Hidalgo County • Department of Budget & Management

American Rescue Plan Act 2022

members during the COVID-19 public health emergency. The Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) Final Rule recognizes the new construction of early learning facilities, schools, and other educational buildings or equipment as eligible capital expenditures to assist disproportionately impacted communities.

The Hidalgo County American Rescue Plan Act Educational Opportunity and Readiness Program intends to address educational disparities and provide academic support to help mitigate the impacts of the COVID-19 public health emergency. As stated in the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) Interim Final Rule, educational services and practices would address the academic needs of students, including early learning services, after school and enrichment programs, tutoring, career preparation programs, safe recreational spaces, and support for student social, emotional, and mental health needs in a disproportionately impacted community.

Project Description

Through this project, Hidalgo County will provide the Health Department with one (1) Registered Nurse III to assist in training the clinical staff on the utilization of the Electronic Medical Record (EMR) system project. The Registered Nurse III will learn and provide training on the program for staff throughout Hidalgo County's clinics. The EMR system will address the additional record keeping and documentation of all COVID-19 vaccination records. Overall, the project will allow the County of Hidalgo to address the ongoing COVID-19 public health emergency and any future public health emergencies more effectively.

3.1: Public Sector Workforce: Payroll and Benefits for Public Health, Public

Project Description

Through this project, the County will provide Hidalgo County with one Deputy Emergency Management Coordinator to assist with the mitigation of COVID-19 throughout the public health emergency. The purpose of this position is to support the existing staff, in rotating shifts, to better mitigate COVID-19 as there has been an increase in COVID-19 cases. Additionally, the Deputy will also assist the Emergency Coordinator on emergency preparedness issues, coordinate training programs and emergency operation drills, assist departments with their emergency and mitigation plans, grant applications and administration, and administer the submittal process for Federal and State reimbursement claims for the county's cost during emergency operations during the ongoing pandemic.
